

AVICINA Cinnamon

Oral drop

Lowers Blood Sugar

Cinnamon is a powerful spice that has been used medicinally around the world for thousands of years. It is still used daily in many cultures because of its widespread health benefits, not to mention its distinctly sweet, warming taste and ease of use in recipes.

According to researchers, out of twenty-six of the most popular herbs and medicinal spices in the world, cinnamon actually ranks #1 in terms of its protective antioxidant levels.

The unique smell, color, and flavor of cinnamon are due to the oily part of the tree that it grows from. The health benefits of cinnamon come from the bark of the *Cinnamomum* tree which is used in forms of powder or essential oil.

AVICINA Cinnamon oral drop, the essential oil, with the active ingredient Cinnamaldehyde, extracted from "*Cinnamomum verum*" or *Cinnamomum zeylanicum*", helps lower blood glucose and is used as an add-on therapy for glucose intolerance and type II diabetes.

The extraction process is carefully designed to ensure the maximum effectiveness and most benefit. And finally, a natural emulsifier has turned it into a water soluble drop that significantly improves the absorption.

Directions: Three times a day, mix 3 to 5 drops in a cup of water or juice, and drink.

Notes:

- **Cinnamon oral drop** should not be used during pregnancy.
- Keep out of reach of children.
